

## **SAP Global Trade Services (SAP GTS) Contents**

### **Purpose**

SAP Global Trade Services (SAP GTS) automates global trade processes and enables you to manage large numbers of business partners, and high volumes of documents while also helping you to comply with changing legal regulations. It facilitates global trade by providing you with the tools you require to respond to governments modernizing their systems and to customs authorities communicating electronically with businesses.

SAP GTS also helps you to avoid costly delays in your import and export processes and allows you to respond quickly to global business opportunities while mitigating financial risks.

### **Integration**

SAP GTS is based on SAP Web Application Server 6.20 and 6.40 technology and can be connected to both SAP and non-SAP feeder systems.

### **Features**

SAP GTS consists of the following key capabilities:

#### **SAP Compliance Management**

- Sanctioned party list screening
- Export legal control
- Import legal control

#### **SAP Customs Management**

- Customs processing
- Transit procedures
- Trade document printing
- Customs communications

#### **SAP Risk Management**

- Restitution handling
- Preference processing
